

Letter of Recommendation

Acumen Fund Fellows Program 2010-2011

The letter of recommendation should not exceed 100 kilobytes. Your letter of recommendation should come from someone who knows you in a professional context, and who can describe your performance as a leader, including areas of strength and areas for future growth. We ask that you honor your recommender's original intent and make no changes to their letter. Any indication that a letter of recommendation has been falsified or changed by an applicant will be grounds for removing their application from consideration.
